

Eric Browning

Product Designer & Leader

15 years of experience as a design generalist adept at working holistically to find solutions. Proven track record in collaborating and building user-friendly products. Demonstrated success in aligning with business goals, moving quickly, and working proactively..

EXPERIENCE

Bloomfilter, Chicago, IL (remote)

AI-driven process mining for software development

Product Design Lead

2023

- Led end to end research, planning, and design for 3 complex AI-driven features for financial planning and strategic initiatives in 4 months.
- Created and implemented a design system resulting in a 60% reduction in color palette and a ~70% decrease in type styles while improving consistency and visual impact.
- Worked with product and executive leadership to build high fidelity interactive prototypes critical for roadmap, sales, and marketing efforts.

Tanium, Kirkland, WA (remote)

Cybersecurity and systems management platform for large organizations

Senior User Experience Designer

2018 – 2023

- Owned UX and design for popular Patch and Deploy modules (>25 million endpoints under management) managing significant feature expansion, customer growth, and usability improvements.
- Collaborated with 2 large cross functional teams for new product partnership with Salesforce to launch an ITSC product in 6 months, resulting in \$8 million of new sales pipeline.
- Created and enhanced over 30 components and features of the design system for scalability, consistency, and efficiency.
- Established a "UX champions" group for ~25 engineers, ultimately justifying and leading to the creation of dedicated roles.
- Initiated a project to design, test and launch a major navigation redesign; leading a team with a graduate-level intern and a junior designer/researcher

Coffee and Code, Akron, OH

Boutique consulting firm building MVPs and improving established products

Lead Consultant, UX & Product Design

2014 – 2018

- Introduced data-driven design workflows and design thinking workshops with multiple organizations to increase efficiency and enable smarter decisions.
- Leveraged expert research to build a therapy application for people with Alzheimers and dementia and their caregivers.
- Helped increase company revenue by 40% over a single year, and 70% over a two-year period.
