Dear Papa team,

I'm excited to be applying to join your team as Senior Product Designer. I've been learning more about Papa and am impressed at what you've been able to achieve and what your goals are. I would be a strong asset to help you move us all closer to a world where no one has to go it alone.

With 15 years of experience in user experience, design, and strategy for software I've worked as a design generalist conducting and interpreting research, planning features and user journeys, prototyping, and building design systems. My super power is working through ambiguity to create something cohesive and clear.

Working at Tanium I saw the benefits of using a human-centered approach and building with empathy even in a field typically more focused on tools and data than the people behind the keyboards and screens. That has been true throughout other contexts in my career as well and I love the similar principles Papa focuses on, emphasizing human connection and support above all else.

I've put together some case studies at <https://www.fiveoclockfriday.com/be-a-pal>.

Thank you, I look forward to speaking with you soon and learning more about becoming a part of Papa.

Sincerely,

*Eric Browning*
