Bloomfilter **Product Design Lead** 2023

Directed UX and design for a B2B SaaS startup in the software development space.

- Led end to end research, planning, and design for major AI-driven features in financial planning and strategic initiatives.
- Collaborated with product leadership to build high fidelity interactive prototypes for roadmap, sales and marketing efforts.
- Implemented a streamlined design system for the platform and digital brand, resulting in a 50% reduction in color palette size and a ~70% decrease in type styles for improved performance, consistency, and scalability.

Tanium **Senior UX Designer** 2018-2023

Core member of the UX team, with ownership over several major products and responsibility for a variety of early stage and internal projects.

- Worked as primary design resource for new joint product partnership with Salesforce in IT Service Management. Leveraged both Tanium and SFDC design systems to launch ITSC product in 6 months with a large cross functional team.
- Owned UX efforts for popular Patch and Deploy modules (>20m endpoints under management) through significant feature expansion, customer growth, and design improvements.
- Initiated a project to brainstorm, design, test and launch a navigation redesign, leading a team with a graduate-level intern and a junior designer/researcher.
- Served in leadership roles including direct mentorship, assisting in new hire onboarding, and creating/leading a UX champions group for ~25 engineers.

Coffee and Code

Design Lead

2014-2018

Led interface design and user experience work at a boutique software consulting firm. Managed projects from initial pitch through completion.

- Won over stakeholders at multiple companies by introducing data-driven design workflows to increase efficiency and enable smarter decisions.
- Leveraged expert research to build a usable therapy application for people with Alzheimers and dementia and their caregivers.
- Helped increase company revenue by 40% over a single year, and 70% over a two-year period.
